LISTA
making workspace work®

Lista offers a comprehensive array of innovative workspace and accessory systems, all of which are described in this catalog. Within the following pages, you'll find:

- Easy-Order offerings of a broad range of Lista products
- A wide selection of accessories that allow you to create your own custom solutions
- Solutions for almost any workspace need, and much more!

You can use this catalog to order the workspace systems that exactly suit your individual needs.

To help you navigate the catalog, our sections are color coded:

At Lista, we provide the most complete selection of workbenches, workspace furniture, accessories and more. We help you create work environments that:

- Are high quality
- Improve productivity
- Benefit the user through smart ergonomic design
- Offer unmatched flexibility
- Are attractive and comfortable

The workbench you want, the way you want it.

No other workbench or workspace furniture supplier offers you such a comprehensive collection of solutions. And we're always exploring and developing new ways to make your workspace work even better. That's why you can count on us to provide:

- The flexibility to interchange accessories across our product line, for a custom solution without a custom price
- The freedom to reconfigure components and accessories to exactly suit the needs of different applications and users, no matter how often they change

We can provide workspace solutions that will fit the needs of every department in a wide range of facilities, including:

- R&D
- Manufacturing
- Assembly
- Quality control
- Maintenance & repair
- Shipping/receiving
- Laboratories
- Warehouse/distribution
- Service & repair
- Test & calibration
- Education
- And more

Built to last.

The result of high-quality, all-steel construction and innovative engineering and design, Lista products are built to provide decades of functionality and ease of use in the most demanding working environments. Each solution we offer features superior stability and durability, the hallmarks of all Lista products.

Our products feature a durable, high-quality powder coat finish.

An investment in a Lista modular workspace system will still be paying dividends years from now.

**The industry's best products
deserve the best support.**

Lista has knowledgeable, helpful resellers throughout North America. So no matter where you are, the guidance, products and support you need are always nearby.

**Our free design services are
actually priceless.**

Lista's engineering and design team is ready to provide you with a detailed plan for your individual workspace and storage needs, free of charge. We offer solutions that are designed for maximum efficiency and future flexibility, optimizing space and profitability.

- **Floorspace utilization analysis:** we can prepare CAD drawings of site plans and elevations for a grouping of products, or entire room-sized solutions.
- **Customized surveys and layouts:** Lista experts will survey your current and future storage and workspace needs, and propose solutions that provide the highest density and greatest productivity.
- **Integration with architectural and construction planning:** rely on our experience with coordinating with architectural and construction professionals at any stage of a project's development.
- **Price quotes:** we are happy to provide free estimates and price quotes for any project, regardless of size.

**Custom applications that think
outside the box.**

Custom applications are never a problem at Lista. Our engineering and manufacturing teams will work closely with you to analyze your needs and modify our standard products to meet your special requirements.

Lista – Putting Ergonomics in Their Place

No matter what kind of job is performed at a Lista workstation, your workers benefit from the most advanced application of ergonomic science. They'll be safer, more comfortable, more organized, and ultimately, more productive.

Why are ergonomics important?

Twisting, lifting, bending, reaching – these movements can waste time and put unnecessary stress on your workers. Repetitive motion injuries and other work-related musculoskeletal conditions increase both downtime and workers' compensation costs. The application of ergonomic principles can:

- Improve productivity by eliminating wasted motion
- Minimize the risk of work injuries
- Reduce workers' compensation cases

Get in the zone.

Work is most efficient when it's kept within areas defined as "primary reach zones" – the horizontal and vertical areas a worker can reach with minimal arm, head or trunk movement (see illustrations below). Work outside the primary reach zones adds movement, wastes time and erodes productivity.

By addressing the differences among tasks and workers, we can develop ergonomic workspaces that fit just about any situation. In this catalog, you'll find:

- Height-adjustable worksurfaces that can be raised or lowered

- Articulating arms that position components and tools within easy reach
- Other above-the-worksurface accessories that minimize worker strain

Our solutions keep workflow compact, organized and as close as possible to the primary reach zones, for less stress on your workers and more efficiency and productivity for your business.

How do we make workspace work so well?

To create your optimal Lista workspace, we ask a lot of questions:

- Does the work process involve handling heavy, bulky or awkward items?
- Is there a high product mix, with many product changeovers every day?

- Will workstations be integrated with material flow (racks or conveyors, for example)?
- Is there frequent job rotation? Do workers from different shifts or departments share a station?
- Will employees work alone, back-to-back or in teams?
- Does the workstation require power tools, computer equipment, supplemental lighting or storage space?

Based on your answers, our workspace designers and engineers develop comprehensive technical and design plans that illustrate the workspace solutions and accessories that will help your operation become as safe and productive as possible.

The economics of ergonomics.

Immediate increases in productivity mean greater profitability and a quick return on your investment. Long-term cost efficiency is delivered through reconfigurable components that keep pace with changes in your work processes. The safer work environment provided through ergonomic design helps minimize the risk of work-related injuries, so you also minimize workers' compensation claims and lost days. Add it all together, and the value of an ergonomically designed Lista workspace solution is clear.

Sitting
29.5" worksurface height will accommodate 99.5% of all male and 99.9% of all female workers.

Standing
Determine optimal worksurface height depending on the type of work being performed.

Align® and Arlink® 8000 workstation worksurface heights can be easily adjusted to accommodate the comfort and safety of your employees.

Lista Workspace Furniture

Technicians at ACD (Automated Circuit Design) in Richardson, TX design, fabricate and assemble circuit boards on versatile Arlink® 8000 workstations. Testers at double-sided workstations take advantage of the Arlink 8000's ample electrical power and extensive worksurface space. Test instruments are stored out of the way on wire shelves.

Lista Workspace Furniture Makes Any Workspace Work

Workcells for assembling pulse oximeters take advantage of the flexible configurability of the Arlink® 8000 system. Whether the task is progressive assembly or piece work, mobile Arlink 8000 workstations can be quickly and easily configured to accommodate workflow.

No matter what you're working on, Lista's wide range of technical workspace furniture systems have the variety, durability and flexibility to meet your needs.

Maximum ergonomic comfort and increased productivity are hallmarks of the Align® Adjustable Height Workstation. Whatever the ideal worksurface height for the task at hand, the workstation's 16" vertical height adjustability is up (or down) to the job.

Technical electronic workstations have the versatility to adapt to a wide range of tasks. At this manufacturing facility for electric power systems, tech legs are combined with the VSI accessory system and integrated with a conveyor system for maximum productivity on the assembly line.

Technical electronic workstations can be outfitted with cabinet pedestals for easy access to stored tools and parts.

Technical electronic workstations are ideally suited for a variety of assembly and testing tasks, including static-sensitive operations and environments.

Arlink 8000 uprights can be used for a wide range of tasks, including as convenient, versatile shelving and storage.

Align® Adjustable Height Workstations can be equipped for a variety of electronic, assembly and light manufacturing tasks, including static-sensitive operations. The addition of the Nexus Accessory System, with its wide range of accessories, allows each workstation to be equipped to exactly suit the work being done.

Completely integrated and modular, Arlink 8000 workstations ensure that you'll always have the exact workstation your work demands. With their easy reconfigurability, Arlink 8000 workstations can be altered for multiple functions and changes in your workflow. This enduring adaptability means that you'll have a cost-effective solution for all of your assembly, repair and light manufacturing workstation needs, both today and in the future.

Maximum return on investment

Arlink 8000 workstations feature a unique column design that provides a sturdy, flexible backbone for your evolving needs. Thanks to the system's versatility and durability, this exceptional series of workstations pays for itself quickly, while providing continuous value for years to come.

Ease of assembly

The Arlink 8000 workstation offers the industry's fastest and simplest set-up and reconfiguration. Virtually no hardware or tools are required, making changes efficient and frustration-free.

Ergonomics

With an emphasis on ergonomics, the Arlink 8000 workstation improves comfort, eliminates wasted motion, and minimizes fatigue and strain.

PAINT COLORS – PLEASE NOTE!

- Arlink 8000 workstations and accessories are available in Light Gray and Sand only.
- Other colors, including other standard Lista colors, are available on request at an additional charge.
- Accent trim for support columns, lights, steel shelves and footrests (included with each workstation) is available in a choice of colors – see page 16.

Ease and flexibility when positioning system components are a hallmark of Arlink 8000 workstations.

ARLINK 8000 AND VSI ACCESSORIES ARE NOT COMPATIBLE WITH NEXUS SYSTEM UPRIGHTS.

Simplicity

- Fast, easy assembly.
- With our starter and adder system, workstations can easily link to create infinite layout options.
- Workstations can be converted from single- to double-sided at any time – quickly, easily and inexpensively.

Modularity

- Five standard section widths and five standard column heights.
- Section widths can be mixed and matched to suit your needs.

Strength

Made of high-strength, cold rolled steel, the system's columns provide maximum structural integrity.

Adaptability

Unique Definite Positioning System® (see page 16) allows easy, secure placement and reconfiguration of accessories.

Mobility

Mobile workstations are easily relocated, allowing fast layout changes.

Visibility

Optional task lighting provides illumination for the most exacting work.

Secure storage

Hanging drawers and overhead cabinets can be added anywhere you need secure storage for valuable tools, equipment, parts or personal effects. Lista drawer storage cabinets also make excellent companion cabinets – see Lista's General Storage Catalog.

Electrostatic control

Electrostatic control  products and accessories are available to meet most ESD-related requirements.

Clean room certification

Arlink 8000 workstations have been certified for use in a CLASS 10,000 clean room per the USA Federal Standard 209E and CLASS 7 per ISO 14644 International Clean Room Standard. For information on specifying a clean room workstation, contact your Lista representative.

Aesthetics

Components are powder coated in attractive Light Gray or Sand (with other colors available on request), and a choice of ten trim colors for a contemporary appearance.

Arlink 8000 workstations give the user the greatest flexibility possible. Our unique **Definite Positioning System®**, numerous footprint configurations, and easy-to-assemble starter and adder sections, mean you can easily adapt and reconfigure your workstations as your needs evolve.

Brackets fit into either micro slots or macro slots.

Definite Positioning System®

An innovative assembly concept which features one macro and two micro slots on each side of a high strength column, this approach greatly reduces the time and effort needed to attach components to the system, while making highly efficient use of space. Since columns are double-sided, a single column may be used by two back-to-back workstations, as well as adjacent sections.

Macro slots provide support for heavy-duty components, such as worksurfaces and shelving. In the case of adjacent workstation sections, the macro slot is utilized by both to save space and reduce system cost. Components that attach to the macro slots are vertically adjustable in 3" increments.

Micro slots provide support for lighter-duty components, such as power beams and parts bin rails. Micro slots are located to the left and right of the macro slot, and provide maximum component placement options. Components that attach to the micro slots are vertically adjustable in 1" increments.

Accent trim colors

Plastic accent trim for support columns, lights, steel shelves and footrests (included with each workstation) is available in a choice of colors.

Conveyor workstations

The Arlink 8000 family of conveyor workstation systems provides cost-effective, high-efficiency workflow management throughout your entire production stream, between automatic machines and in operations including:

- Manual assembly areas
- Inspection
- Testing
- Rework
- Packaging

Systems are available with single- or multi-level conveyor or easily integrated with the conveyor of your choice.

Single sided – operator faces conveyor with standard work-surface

Double sided – operator faces conveyor with scalloped work-surface

Select from Arlink 8000 workstation options to best optimize workflow management, including worksurfaces and accessories (task lighting, power, air and data beams, shelving, parts bin racks, etc.).

Double sided – operator faces conveyor with standard work-surface

Double sided – operator at 90° to conveyor with standard work-surface

The workstation components shown on this page are pre-configured to include our most popular and versatile Arlink 8000 workstation styles. To design a custom workstation to suit your exact needs, see pages 20-21.

Arlink 8000 workstations consist of a starter section, and as many adder sections as you need for your application.

Select from single- or double-sided starters, adders, or corners in all standard section widths and heights. You may also choose either 28" - or 30" -deep worksurfaces in either plastic laminate or static dissipative laminate. Easy-Order sections include all accessories shown in the charts to the right. To order additional accessories, please see pages 22-28.

How to order an Easy-Order Arlink 8000 workstation section

Follow the 6 steps below for starter section and repeat for each adder section.

1. Select Easy-Order section configuration.

- A-SS** = single-sided starter
- A-SA** = single-sided adder
- A-SC** = single-sided corner adder
- A-DS** = double-sided starter
- A-DA** = double-sided adder
- A-DC** = double-sided corner adder

2. ■ Select section length.*

- 30** = 30" long
- 36** = 36" long
- 48** = 48" long
- 60** = 60" long
- 72** = 72" long
- *corner adders 36" long only

3. ■ Select section height.

- 54** = 54" high*
- 72** = 72" high
- 84** = 84" high
- *54" high sections do not include light assemblies

4. ■ Select section depth.

- 28** = 28" deep
- 30** = 30" deep

5. ■ Select worksurface material.

- SL** = plastic laminate
- SD** = static dissipative plastic laminate

6. ■ Select powder coat paint color.

- LG** = Light Gray
- SN** = Sand

EXAMPLE: to order a starter single-sided workstation section that is 60" long, 84" high and 30" deep with a plastic laminate worksurface and Sand paint, the part number would be **A-SS608430SLSN**.

To order an adder single-sided workstation section that is 48" long, 84" high and 30" deep with a plastic laminate worksurface and Sand paint, the part number would be **A-SA488430SLSN**.

To order an adder single-sided corner section that is 84" high and 30" deep with a plastic laminate worksurface and Sand paint, the part number would be **A-SC368430SLSN**. (When ordering an "L" shaped configuration, 2 starters must be used with a corner adder.)

A-SS Single-sided starter

- Includes:
- 1 starter assembly (see page 20)
 - 1 footrest
 - 2 outriggers
 - 1 worksurface assembly
 - 1 single-sided power beam (15 amp)
 - 1 open wire shelf, 12" depth
 - 1 light fixture assembly
 - 1 parabolic light diffuser

A-SA Single-sided adder

- Includes:
- 1 adder assembly (see page 20)
 - 1 footrest
 - 1 outrigger
 - 1 worksurface assembly
 - 1 single-sided power beam (15 amp)
 - 1 open wire shelf, 12" depth
 - 1 light fixture assembly
 - 1 parabolic light diffuser

A-SC Single-sided corner adder

- Includes:
- 1 adder assembly, 36"
 - 1 outrigger
 - 1 corner worksurface assembly
 - 1 single-sided power beam (15 amp)
 - 1 open wire shelf, 12" depth
 - 1 light fixture assembly
 - 1 parabolic light diffuser

A-DS Double-sided starter

- Includes:
- 1 starter assembly (see page 20)
 - 2 footrests
 - 4 outriggers
 - 2 worksurface assemblies
 - 1 double-sided power beam (15 amp)
 - 2 open wire shelves, 12" depth
 - 2 light fixture assemblies
 - 2 parabolic light diffusers

A-DA Double-sided adder

- Includes:
- 1 adder assembly (see page 20)
 - 2 footrests
 - 2 outriggers
 - 2 worksurface assemblies
 - 1 double-sided power beam (15 amp)
 - 2 open wire shelves, 12" depth
 - 2 light fixture assemblies
 - 2 parabolic light diffusers

A-DC Double-sided corner adder

- Includes:
- 1 adder assembly, 36"
 - 2 outriggers
 - 2 corner worksurface assemblies
 - 1 double-sided power beam (15 amp)
 - 2 open wire shelves, 12" depth
 - 2 light fixture assemblies
 - 2 parabolic light diffusers

Plastic Laminate Worksurface Assemblies

Worksurface is constructed of 1" thick medium density particle board covered on top and all sides with non-glare matte finish plastic laminate. The front edge is contoured for comfort and chip resistance. The under side of the work surface is sealed with a plastic tension sheet to prevent moisture absorption, warping and shedding. Threaded steel inserts facilitate easy assembly and reconfiguration. Assembly includes 2 work surface support brackets and 2 work surface support beams.

Static Dissipative Laminate Worksurface Assemblies

Worksurface is the same as the plastic laminate work surface, but with plastic laminate that provides a controlled path to ground for the dissipation of static electricity. The work surface is provided with a grounding kit that must be used to provide proper protection for components and personnel. Static dissipative value for the material is 10⁶ - 10⁹. Assembly includes 2 work surface support brackets and 2 work surface support beams.

Material Transfer Worksurfaces

Material transfer work surfaces offer a cost-effective, efficient means of workflow management for products or pallets in assembly, repair and rework environments.

Through the use of pop-up balls, pop-up pads, insert wheels, or insert rollers, work surfaces are customized to accommodate the transfer needs of your product and process. Material transfer work surfaces are often a lower cost alternative to conveyors and can greatly improve the efficiency, safety and ergonomics associated with working on and moving a product. The unique ability to integrate Lista's Arlink 8000 components and accessories such as task lighting, wire and steel shelving, drawers and cabinets provides unsurpassed flexibility.

Material transfer work surfaces may be integrated with all Arlink 8000 section sizes, work surface depths and materials. Please contact your Lista representative for help in configuring a system and providing the solution best suited to your requirements.

Designing a custom Arlink 8000 workstation is a simple and straightforward process. Start by selecting the structural elements (starter and adder assemblies), add outriggers, choose worksurface(s), and add the accessories that fulfill your needs.

In addition to the column heights shown, columns can be custom cut to any size you request.

1. Select starter assembly (length and height)

The starter assembly is the first component for each workstation and includes 2 columns with outer and inner trim, and a closed stabilizer panel. Optional open stabilizer panel may be ordered for full access from the rear of the workstation. To specify open stabilizer in place of closed stabilizer, add the prefix "O" to the part number.

72"	8694	8901	8900	8600	8700
84"	8696	8903	8902	8603	8704

2. Select adder assemblies (length and height)

The adder assembly for each adjoining section includes a single column with outer and inner trim, and a closed stabilizer panel. Optional open stabilizer panel may be ordered for full access from the rear of the workstation. To specify open stabilizer in place of closed stabilizer, add the prefix "O" to the part number.

3. Select outriggers

Choose from 5 outrigger designs:

- 8044** for worksurfaces 28"-32" deep and shelving 20"-22" deep
- 8040** heavy-duty, for worksurfaces 28"-32" deep and shelving 20"-22" deep
- 8041** for worksurfaces 34"-36" deep
- 8043** for rear of single-sided applications, to increase stability
- 8042** for shelving 12"-18" deep

Order 1 outrigger for each column used (2 per column for double-sided applications). For optional swivel footrests, see page 27.

All Arlink 8000 workstation sections can be ordered in a mobile configuration, providing for easy relocation and smooth movement of workstations.

Stationary Arlink 8000 workstations can easily be retrofitted to mobile configurations when desired.

Designing a custom Arlink 8000 mobile workstation is a similar process to designing a stationary workstation. Start by choosing a base (either single-sided or double-sided), select structural elements (starter and adder assemblies), choose worksurface(s)*, and add the accessories that fulfill your needs.

In addition to the column heights shown, columns can be custom cut to any size you request.

*Maximum worksurface depth 30".

Open Wire Shelves

Welded steel wire shelf has chrome plated finish. Adjusts from horizontal to 15° and 30° inclination. Includes front lip (can be oriented up or down). Weight capacity 150 lbs. 12" deep. Mounts in macro slots, adjusts vertically in 3" increments.

SC15	wrist strap with 6' coil cord*

* with 1 megohm resistor

Common Point Ground Block

Two connection sides – one side connects to a 1 megohm resistor, the other side bypasses the resistor and connects directly to ground. Includes 8' cord.

PART NO.	DESCRIPTION
SC14	

Ground Kits

Kit is supplied with all static dissipative worksurfaces or shelves. Includes attaching hardware.

PART NO.	DESCRIPTION
SC10	worksurface kit with 8' cord*
SC30	shelf kit with 6' cord**

* with 1 megohm resistor

** without 1 megohm resistor

CPU Holder

Allows CPU to be mounted under worksurface (off of floor). Mounts under worksurface to worksurface support beams.

PART NO.	W X D X H
8440	9 1/2" x 18" x 20"

Swivel Footrests

Drops into slots on 8044 and 8041 slotted outriggers. Adjustable to suit worker at individual workstation. Includes color trim.

Keyboard Holder with Mouse Tray

Tiltable keyboard holder allows computer keyboard to be stored under worksurface when not in use. Includes swivel pull-out mouse pad which can be attached to either right or left side.

PART NO.	L X W
8451	21" x 10"

Freestanding Footrests

Ergonomic footrest provides support for user's feet. Height adjustable from 3" - 12". Footrest platform is 15" deep x 21 3/4" wide, and adjusts from totally flat to a 25° angle. Includes ribbed mat.

PART NO.	DESCRIPTION
8909	not static dissipative
8909SD	includes ground snap for static dissipative environments

Micro Slot Universal Mounting Bracket

Bracket is welded steel. Mounts in micro slots, adjusts vertically in 1" increments. For attaching articulating arm to column. Must be ordered separately.

PART NO.	FOR ARTICULATING ARMS
8406	8410, 8409

Heavy-Duty Universal Mounting Bracket

Bracket is welded steel. Bolts on through column and adjusts vertically in 3" increments. For attaching articulating arm to column. Must be ordered separately.

PART NO.	FOR ARTICULATING ARMS
8423	8410, 8409

Articulating Arm

Tubular steel arm is 18" overall length. Weight capacity is 75 lbs. Can mount left or right, adjusts vertically in 3" increments. Included with accessories. Does not include mounting bracket.

PART NO.	FOR MOUNTING BRACKETS
8410	8406, 8423

Double Articulating Arm

Two 8" tubular steel arms, linked together to provide an additional articulation point. 50 lb. capacity. Can mount left or right, adjusts vertically in 3" increments. Included with accessories as shown. Does not include mounting bracket.

PART NO.	FOR MOUNTING BRACKETS
8409	8406, 8423

Monitor Shelves with Keyboard Holder

Holds computer monitor. Includes retractable wire keyboard holder. 75 lb. capacity. Requires universal mounting bracket (not included).

PART NO.	DESCRIPTION
8878	12 3/8" wide x 12 3/8" deep
8838	with double articulating arm

Optional Mouse Tray

Mouse tray attaches to monitor shelf with keyboard holder (above) to hold computer mouse and/or mouse pad. Ordered separately.

PART NO.	DESCRIPTION
8895	9 1/2" wide x 7 5/8" deep

Flat Panel Monitor Arms

For attaching flat panel monitor to upright. 17 1/2 lb. capacity. Mounts in macro slots, adjusts vertically in 3" increments. Includes mounting bracket.

- 8415 swings left and right, and has 2 articulating points.
- 8628 also includes a 9" extender which allows positioning of monitor screen away from adjacent accessories.

PART NO.	DESCRIPTION
8415	attaches to column
8628	includes 9" bracket extender

Equipment Shelves

Holds a variety of customer-supplied equipment or tools. 75 lb. capacity. Requires universal mounting bracket (not included).

PART NO.	DESCRIPTION
8857	12 3/8" wide x 12 3/8" deep
8839	with double articulating arm

Accessory Shelves

For easy access to small tools, instruments, parts, etc. 21 1/4" wide x 7 3/8" deep. 75 lb. capacity. Requires universal mounting bracket (not included). Ribbed mat optional.

PART NO.	DESCRIPTION
8887	accessory shelf
8765	with double articulating arm
8759	ribbed rubber mat

Bin Container

Holds 3 rows of plastic bins for easy access to parts and components (bins not included – see chart to right). Interior space per shelf is 20" wide x 6" deep. Top shelf is 3 1/4" high, second and third shelves are 3 3/4" high. 50 lb. capacity. Requires accessory shelf (above) for support (not included), or can be used freestanding. Requires universal mounting bracket (not included).

PART NO.	DESCRIPTION
8888	

Task Light Bracket

Sturdy welded steel bracket mounts in micro slot with 1/2" diameter hole for task light.

PART NO.	LENGTH
8130	9"
8132	15"

Document Holders

For displaying papers, plans, etc. Includes lip for pencils, pens, etc. Requires universal mounting bracket (not included).

PART NO.	DESCRIPTION
8666	11 7/8" wide x 13 3/4" high
8776	with double articulating arm

Large Document Holders

For displaying large documents, and open binders and books. Includes lip for pencils, pens, etc. Requires universal mounting bracket (not included).

PART NO.	DESCRIPTION
8670	23 5/8" wide x 13 3/4" high
8786	with double articulating arm

Parts Bin Rack

Holds industry-standard plastic parts bins (not included – see below). Requires universal mounting bracket and 8410 or 8409 swing arm (not included).

PART NO.	DESCRIPTION
8432	18" wide x 10" high

Parts Bin Boxes

Blue plastic bin fits in rack or on rail and slides to position. Conductive bin is black.

Arlink 8000 Flow Rack Shelf Assemblies

Shelf assembly includes roller tracks and guides as shown. 3" high, 48" deep. 600 lb. weight capacity. For additional roller tracks and guides, see chart to right.

PART NO.	WIDTH	INCLUDES
FR30	30"	4 roller tracks, 1 guide
FR36	36"	4 roller tracks, 1 guide
FR48	48"	6 roller tracks, 2 guides
FR60	60"	6 roller tracks, 2 guides

Arlink 8000 Flow Rack Shelf Accessories

Shelves are slotted on 1 1/2" increments to accept roller tracks and guides. Guides separate sections. Rollers are 1 1/16" wide; tracks are 1" wide. Two rollers are recommended for rows up to 15" wide, and 3 or more for wider rows.

PART NO.	DESCRIPTION
FRTR	roller track
FRGU	roller guide
FRCP	replacement clip

Flow racks can be used to stage and deliver parts utilizing gravity, reducing material handling time and costs. Bins or totes are loaded on flow rack frames from the rear, and as operators remove one from the front, a new bin glides forward on rollers. Similarly, flow rack frames can be inclined away from an operator to allow removal of completed work.

Flow racks are constructed utilizing the same Starter and Adder system common to all Arlink 8000 workstations. Worksurface assemblies and accessories as shown in this catalog can be added to create a complete parts presentation and integrated workstation system. Ball transfer worksurfaces (see page 19) or conveyors (see page 17) may also be integrated into the worksurface as needed. Flow racks can be made mobile by the addition of caster sets.

Flow rack sections may be joined side by side, using Starter and Adder assemblies to achieve any overall length and combination of section sizes.

Progressive Assembly System

Designed for transportation of circuit boards or other panelized items, not to exceed 15" wide and 3/8" thick. Two versions are available.

Shelf Mount Progressive Assembly Systems

Consists of 2 aluminum slide rails, 2 channel rails, 2 joiner pins and 1 chrome plated part trough. Shelves must be ordered separately (see page 22).

Utility and Parts Carts

Single- or double-sided modular carts can be configured with any combination of shelves, parts bins, utility bins, etc. to meet your exact needs. All are constructed using Lista's standard Arlink 8000 column to allow complete interchangeability of components with workstations.

For accessories for utility and parts carts, see pages 22-28.

Utility and Parts Carts

54" high carts feature 2 wheel-locking and 2 non-locking casters, 3 1/2" diameter. Wheels are rubber, non-marking.

Accepts:

- Shelves (page 22) – maximum shelf depth for parts cart is 14"
- Pegboard, louvered, reversible and modesty panels (page 25)
- Bin rails (page 26)
- Power, air and data beams (page 24)
- Pivoting accessories (page 28)

VSI (Vertical Space Integrator) Accessory System

VSI uprights and accessories mount onto any workbench worksurface to provide a complete accessory system. VSI uprights' double-sided columns allow uprights and accessories to be shared between two benches (see below).

VSI (Vertical Space Integrator) Accessory System

Features sturdy 45" high, 1 1/4" wide, 4" deep, roll-formed steel columns that fasten to the bench top and are stabilized by a modesty panel. Starter assembly includes 2 columns, 4 trim strips, 1 modesty panel, and mounting hardware. Adder assembly includes 1 mounting column, 2 trim strips, 1 modesty panel and mounting hardware.

Trim strip color can be chosen from the chart on page 16. Foot plate for surface mount uprights is 5" x 3". Surface mount VSI System width must be a minimum of 6" shorter than worksurface width. Rear mount VSI System can be full width of Align workstation worksurface.

For VSI system accessories, see pages 22-28.

The VSI (Vertical Space Integrator) System is designed to expand the efficiency of:

- Align® adjustable height workstations
- Lista technical electronic workstations
- Lista industrial workbenches
- Retrofit to existing workbenches

You can create highly productive and efficient work centers by adding above-worksurface work aids such as task lighting, storage shelves, power beams, parts bin rails, etc.

With the VSI System, you're able to utilize the Arlink 8000 system's wide range of shelving and accessory options that easily attach to the vertical column without the need for tools, using the micro and macro slots on both sides of the upright columns (see page 16 for detailed descriptions).

The VSI System is easily installed by in-house personnel and can be utilized as a single unit on a stand-alone bench, or linked together using our starter/adder system. VSI columns are double-sided, and one VSI may service two benches when benches are positioned back-to-back.

Lista Align® Adjustable Height Workstations

Cirtronics, a contract electronic manufacturer, uses Align Adjustable Height Workstations throughout its 80,000 sq. ft. facility. Align workstations are used for assembly, inspection, machining and a variety of other functions. Their ergonomic advantages have kept Cirtronics coming back for more Align workstations over the years.

Lista's Align® Adjustable Height Workstations bring the user an unsurpassed level of ergonomic comfort, flexible functionality and enhanced productivity.

With an adjustable height ranging from 27" to 42" (not including worksurface), this workspace solution is designed

with the operator in mind. It reduces fatigue, stress and potential injury. The workstation is ideally suited for repairing, testing, and assembling mechanical and electronic products and components.

Innovative features include:

- Proven, tested technology with thousands of units in use in the field
- Universal platform, which can be adjusted via motor, hand crank or manually adjusted without a lift mechanism (slide leg base)

- Center- and rear-justified options available
- Precision drive system for maintenance-free reliability
- Built-in cable/hose management duct and modesty panel
- Available for 30", 48", 60", 72" and 90" length worksurfaces, and 24", 30", 36" and 48" depth worksurfaces
- Load capacity 1000 lbs. dynamic for motorized base and 500 lbs. dynamic for hand crank base

All uprights and components move in relation to worksurface height

Available with the full range of Nexus System accessories (see pages 76-83)

Wide choice of worksurface materials

Three-position memory switch in motorized base makes height adjustment nearly automatic

Available with either leveling glides or optional casters (see page 36)

Model ALE workstations include an Align rear-justified motorized base. Model ALC workstations include an Align rear-justified crank base.

See page 36 for hanging cabinet descriptions.

How to order an Easy-Order Align Adjustable Height Workstation

1. Select Easy-Order workstation configuration.

2. Select worksurface style.

See page 42 for worksurface descriptions.

- PLB** = Plastic laminate
- BTB** = Butcher block
- SDB** = Static dissipative (includes ground cord and hardware)

All worksurfaces have a bullnose front edge and are 30" deep.

3. Select worksurface size.

- 6030** = 60" long x 30" deep
- 7230** = 72" long x 30" deep

4. Select paint color. Add 2-letter paint code shown in color chart on back cover.

5. Select lock type for models with hanging cabinet.

- RG** = individual
- KA** = keyed-alike
- MA** = master

EXAMPLE: to order an ALE/R5201 workstation with a 72" long plastic laminate worksurface and shelf and Classic Blue paint, with an individual lock for the hanging cabinet, the part number would be **ALE/R5201-PLB7230CB**, with a **WBHC450-2-RG** hanging cabinet.

Nexus Rear-Mount Frames

For use with Align® rear-justified adjustable height bases only.

Starter frames consist of 2 upright posts, a horizontal rail, brackets and hardware. Adder sets consist of an additional upright, a horizontal rail and a bracket. Frames are sturdy, heavy gauge steel, and are notched front and back at 1" increments for mounting accessories. Uprights are available in heights of 30" and 48" (height = height above top of base), and widths of 24", 30", 36", 42", 48" and 60". Specify color from chart on back cover.

Lista Technical Electronic Workstations

Arizona State University's Architecture Department has equipped a number of its student work areas with versatile Lista technical electronic workstations. The workstations' attractive design, wealth of available accessories and configurability have made them a popular solution with both students and staff.

Featuring a sleek, aesthetically pleasing design, the real beauty of Lista's technical electronic workstations is their ability to perfectly suit the widest variety of applications.

Our modular approach is the key to our technical electronic workstation's versatility, with flexible standard components and accessory options both above and below the worksurface, leading to greater productivity and efficiency.

Many configurations feature a built-in electrical power supply, conveniently located on either an instrument riser or as a part of the Nexus accessory system (for more on the Nexus system, see pages 76-85).

Choose from a wide array of static-safe components, including ESD paint, worksurfaces and shelves, conductive plastic boxes and grounding accessories.

Technical electronic workstations have a 1,000 lb. (454kg) weight capacity, and can be configured with a variety of leg and cabinet pedestal choices, including mobile bases for increased flexibility and ease of reconfiguration. Mobile workstations can be quickly moved to and from a work site.

Wide choice of above-work-surface accessories

Access to electrical power available on instrument risers and Nexus Accessory System

Durable worksurfaces come in multiple lengths and depths, in a choice of materials, including ESD

Front and rear top support rails protect integrity of worksurface

Choice of pedestal and leg supports, including Tech Leg, Tech Panel Leg and a large selection of cabinet pedestals

Choice of leveling glides or mobile casters (for 4-leg configurations)

Easy-Order technical electronic workstations include Narrow Width (16 7/8" wide) cabinet pedestals (see page 61 for descriptions). Customer-specified cabinet pedestals (shown in gray) must be ordered separately – for Easy-Order cabinet pedestals, see pages 62-63 for Narrow Width cabinets and pages 68-69 for MP Width cabinets. For more information on overhead cabinets, see Lista's General Storage Catalog.

How to order an Easy-Order Technical Electronic Workstation

1. Select Easy-Order workstation configuration.

2. ■ Select worksurface style. See page 42 for descriptions.

- PLB = Plastic laminate
- BTB = Butcher block
- SDB = Static dissipative (includes ground cord and hardware)

All worksurfaces have a bull-nose front edge and are 30" deep.

3. ■ Select worksurface size.

- 4830 = 48" long x 30" deep
- 6030 = 60" long x 30" deep
- 7230 = 72" long x 30" deep

4. □ Select paint color. For color chart, see back cover or below.

EXAMPLE: to order a TB3201 workstation with a 72" long plastic laminate worksurface and shelf and Bright Blue paint, the part number would be **TB3201-PLB7230BB**.

5. Select cabinet pedestals (for TB03xx and TB06xx configurations). For Easy-Order cabinet pedestals, see pages 62-63 for Narrow Width cabinets and pages 68-69 for MP Width cabinets.

EXAMPLE (CUSTOMER-SPECIFIED CABINETS): to order a TB0300 workstation with a 72" long plastic laminate worksurface, and an NW0750-0601NA cabinet pedestal with Bright Blue paint, the workstation part number would be **TB0300-PLB7230BB**, and the cabinet part number would be **NW0750-0601NA-NBRGBB**.

EXAMPLE: to order a pegboard rear panel for a 60" long shelf with 16" shelf supports, the part number is **IRS-FRP6016-P**.

Above-worksurface accessories using the Nexus System are shown on pages 76-85.

These are the basic steps required for ordering custom technical electronic workstations.

TO ORDER AN EASY-ORDER COMBINATION (WORKSTATION WITH PRECONFIGURED ACCESSORIES), SEE PAGES 40-41.

1 Select worksurface

Select the worksurface that best suits your needs from the choices on page 42. Choose the worksurface length, depth and style that you prefer.

2 Select below-worksurface accessories or bases

Select either 2-leg, 1-leg-with-cabinet or 2-cabinet configuration. Legs, stringers, bottom shelves and privacy panels are shown on page 43. Hanging cabinets are shown on page 36. To select a cabinet pedestal(s), please see pages 60-69.

3 Select above-worksurface accessories

Select the back stop and end stops (page 44), shelves (instrument riser or adjustable – see page 44) and/or Nexus System components (pages 76-85) that suit your needs.

4 Select colors

Select a color from the chart on the back cover. Cabinet housing and drawer fronts can be different colors, but drawer interiors are always gray.

Lista Industrial Workbenches Make Any Workspace Work

Lista's rugged industrial workbench systems and their large variety of accessories can be configured to suit almost any application or working environment.

Sets of workbenches make maximum use of the available space in this machine tool room at the Mercedes-Benz Training Center.

At Landmark Aviation, corporate jets are repaired and maintained at durable Lista workbenches with the Nexus Accessory System. Cabinet pedestals with plenty of drawers provide storage for parts and tools, and the companion mobile cabinet allows additional storage with the convenience of mobility.

Mobile industrial workbenches can be moved right to the point of use, even in a crowded, busy machine shop.

Heavy-duty Lista industrial workbenches combine with Lista stacked cabinets to create an organized, efficient workspace that stands up to the challenges of this marine emergency response company.

A wide range of Lista workbenches brings Toyota Racing Development up to speed in a host of different departments. An industrial workbench provides a rock-solid platform for this inspection station.

Sturdy industrial workbenches at the Con Edison Corporate Learning Center have rugged galvanized steel worksurfaces for extra durability. Specialized testing equipment and heavy-duty components on the worksurfaces enhance this durable, ergonomic workspace.

Easy-Order workbenches include MP Width (22 3/16" wide) cabinet pedestals (see page 67 for description). Customer-specified cabinet pedestals (shown in gray) must be ordered separately – for Easy-Order cabinet pedestals, see pages 62-63 for Narrow Width cabinets and pages 68-69 for MP Width cabinets.

How to order an Easy-Order Industrial Workbench

1. Select Easy-Order workbench configuration.

2. ■ Select worksurface style. See page 56 for descriptions.

- LTS = Lista Top
- GLS = Galvanized steel
- PLS = Plastic laminate
- BTS = Butcher block

All worksurfaces have a standard square edge and are 30" deep.

3. ■ Select worksurface size.

- 4830 = 48" long x 30" deep
- 6030 = 60" long x 30" deep
- 7230 = 72" long x 30" deep

4. Select paint color. For color chart, see back cover or below.

EXAMPLE: to order a WB1201 workbench with a 72" long plastic laminate worksurface and Bright Blue paint, the part number would be **WB1201-PLS7230BB**.

5. Select cabinet pedestals (for WB03xx and WB06xx configurations). For Easy-Order cabinet pedestals, see pages 62-63 for Narrow Width cabinets and pages 68-69 for MP Width cabinets.

EXAMPLE (CUSTOMER-SPECIFIED CABINETS): to order a WB0300 workbench with a 72" long plastic laminate worksurface, and an MP0750-0601NA cabinet pedestal with Bright Blue paint, the workbench part number would be **WB0300-PLS7230BB**, and the cabinet part number would be **MP0750-0601NA-NBRGGB**.

This corporate aircraft operator wanted to upgrade its maintenance facility to match the quality of its aircraft. Several mobile benches, including this mobile inspection station, are used in the company's hangar and support shop.

The mobile workbench used at this electronic repair facility brings repair tools and parts right to the point of use, without sacrificing durability and drawer storage space. The companion mobile storage cabinet (designed to be stored between the workbench cabinet pedestals) adds to the flexibility of this arrangement. For information on ordering mobile workbenches with two cabinet pedestals, contact your Lista distributor.

Lista worksurfaces are all easy to maintain, rugged, and durable.

Worksurfaces come in 48", 60", 72", 84", 90" and 96" lengths, and are 24", 30" or 36" deep, depending on worksurface. Other sizes are available, and certain worksurfaces are available with a bullnose front edge.

How to order stringers and bottom shelves

- Select part number based on workbench length.
- Specify left-hand (facing the workbench) bench support.
 - LL = Lista Leg or Panel Leg
 - NW = NW cabinet
 - MP = MP cabinet
- Specify right-hand (facing the workbench) bench support.
 - LL = Lista Leg or Panel Leg
 - NW = NW cabinet
 - MP = MP cabinet

EXAMPLE: to order a bottom shelf for a workbench with a 72" work-surface, an MP Width cabinet as the left-hand pedestal and a Lista Leg as the right-hand support, the part number would be **WBLBS72/MPLL**.

Privacy Panels

Steel panel attaches to leg or cabinet and runs full length of work-surface. 22 3/4" high.

PART NO.	WORKSURF. LENGTH

Leg Heights

Use the leg heights shown below to match a cabinet pedestal in a leg-plus-cabinet below-work-surface configuration. For a selection of drawer cabinets to serve as pedestals for workbenches, see pages 60-69.

LEG HEIGHT	MATCHES CAB. PEDESTAL
27 1/2"	600 height without base
29 1/2"	600 height with 2" base
31 1/2"	600 height with 4" base
33 1/2"	600 height with 6" base
	750 height without base
35 1/2" (mobile)	600 height w/ mobile base
39 1/2"	900 height without base
	750 height with 6" base

The bench components on this page allow you to customize above the worksurface for your particular needs.

All parts must be ordered separately to match the length of the worksurface you have chosen.

How to order workbench above-worksurface accessories

1. Select worksurface length and depth (see page 56).
2. Select back stop, end stop, shelf or panel part numbers to correspond to both length and depth of worksurface.
3. Specify paint color from the chart on the back cover.

Overhead Cabinets

For a selection of overhead cabinets for additional storage above 15" deep stationary riser shelves, see our General Storage Catalog.

Above-worksurface accessories using the Nexus System are shown on pages 76-85.

Back Stops and End Stops

Steel back stops and end stops have rounded corners. Stops extend approximately 3" above the worksurface. For use with worksurfaces or shelves.

These are the basic steps required for ordering custom workbenches from Lista.

TO ORDER AN EASY-ORDER COMBINATION (WORKBENCH WITH PRECONFIGURED ACCESSORIES):

- PAGES 52-53 FOR INDUSTRIAL WORKBENCHES
- PAGES 54-55 FOR INDUSTRIAL MOBILE WORKBENCHES

1 Select work surface

Select the work surface that best suits your needs from the choices on page 56. Choose the work surface length, depth and style that you prefer.

2 Select below-work surface accessories or bases

Select either 2-leg, 1-leg-with-cabinet or 2-cabinet configuration. Legs, stringers, bottom shelves and privacy panels are shown on page 57. Hanging cabinets are shown on page 36. To select a cabinet pedestal(s), please see pages 60-69.

3 Select above-work surface accessories

Select the back stop and end stops (page 58), shelves (stationary or adjustable – see page 58) and/or Nexus System components (pages 76-85) that suit your needs.

4 Select colors

Select a color from the chart on the back cover. Cabinet housing and drawer fronts can be different colors, but drawer interiors are always gray.

- The right storage solution when space is at a premium

WE OFFER A NUMBER OF PRE-CONFIGURED EASY-ORDER COMBINATIONS

- NARROW WIDTH CABINETS: PAGES 62-63
- NARROW WIDTH MOBILE CABINETS: PAGE 64

Narrow Width cabinets serve as workbench pedestals at this biotech manufacturer's central utility plant's maintenance hub. The department's electricians, mechanics and technicians each have a workstation which, in addition to housing their computer, tools and test equipment, also has storage space for personal items.

For detailed directions on ordering custom cabinets and complete descriptions of the options on this page, please see our General Storage Catalog.

1 Select cabinet housing

Lista's steel cabinet housings offer strength and flexibility. Drawers and shelves can be assembled in any sequence.

NW Narrow Width *Easy-Order* Cabinet Combinations

How to read the charts on this page

The 2 columns to the right of each cabinet illustration indicate:

- Drawer heights
- Drawer interior sets (shown on page 65)

The chart below the illustration indicates:

- Part numbers
- Number of drawers
- Number of drawer compartments created by the interior sets (shown on page 65)

How to order a Narrow Width Easy-Order Cabinet

1. **Select Easy-Order Cabinet Combination** either without or with drawer interior sets (designated by an "A" at the end of the part number – i.e., NW0600-0601NA).

2. ■ Select base type.

- NB** = none
- F2** = 2" frame base
- F4** = 4" frame base
- F6** = 6" frame base

For additional bases, see page 61; for Easy-Order mobile combinations, see page 64.

3. ■ Select lock type.

- NL** = none
- RG** = individual
- KA** = keyed-alike
- MA** = master

For additional lock options, see our General Storage Catalog.

4. □ Select paint color. For color chart, see the back cover or below.

EXAMPLE: to order an NW0600-0402N cabinet with a 6" frame base, an individual lock and Bright Blue paint, the part number would be **NW0600-0402N-F6R^GB^B** (shown in photo at top of page).

NW Narrow Width Easy-Order Mobile Cabinet Combinations

Each mobile cabinet comes with:

- 2 fixed and 2 swivel casters with wheel locks
- Handles
- Individual drawer latches
- 150 lb. load capacity

How to read the charts on this page

The 2 columns to the right of each cabinet illustration indicate:

- Drawer heights
- Drawer interior sets (shown on page 65)

The chart below the illustration indicates:

- Part numbers
- Number of drawers
- Number of drawer compartments created by the interior sets (shown on page 65)

How to order a Narrow Width Easy-Order Mobile Cabinet

1. **Select Easy-Order Cabinet Combination** either without or with drawer interior sets (designated by an "A" near the end of the part number – i.e., NW0600-0601NA-M).

2. **Select lock type.**

NL = none
RG = individual
KA = keyed-alike
MA = master

For additional lock options, see our General Storage Catalog.

3. **Select paint color.** For color chart, see back cover.

EXAMPLE: to order an NW0600-0501NA-M cabinet with an individual lock and Red paint, the part number would be **NW0600-0501NA-M-RGNR** (shown in photo at top of page).

MP Width Easy-Order Cabinet Combinations

How to read the charts on this page

The 2 columns to the right of each cabinet illustration indicate:

- Drawer heights
- Drawer interior sets (shown on page 71)

The chart below the illustration indicates:

- Part numbers
- Number of drawers
- Number of drawer compartments created by the interior sets (shown on page 71)

How to order an MP Width Easy-Order Cabinet

1. **Select Easy-Order Cabinet Combination** either without or with drawer interior sets (designated by an "A" at the end of the part number – i.e., MP0750-0302NA).

2. ■ Select base type.

- NB** = none
- FT** = fork truck
- F2** = 2" frame base
- F4** = 4" frame base
- F6** = 6" frame base

For additional bases, see page 67; for Easy-Order mobile combinations, see page 70.

3. ■ Select lock type.

- NL** = none
- RG** = individual
- KA** = keyed-alike
- MA** = master

For additional lock options, see our General Storage Catalog.

4. □ Select paint color. For color chart, see the back cover or below.

EXAMPLE: to order an MP0750-0302NA cabinet with a fork truck base, an individual lock and Light Gray paint, the part number would be **MP0750-0302NA-FTRGLG** (shown in photo at top of page).

MP Width Easy-Order Mobile Cabinet Combinations

Each mobile cabinet comes with:

- 2 fixed and 2 swivel casters with wheel locks
- Tubular steel handles
- Individual drawer latches
- 150 lb. load capacity

How to read the charts on this page

The 2 columns to the right of each cabinet illustration indicate:

- Drawer heights
- Drawer interior sets (shown on page 71)

The chart below the illustration indicates:

- Part numbers
- Number of drawers
- Number of drawer compartments created by the interior sets (shown on page 71)

How to order an MP Width Easy-Order Mobile Cabinet

1. **Select Easy-Order Cabinet Combination** either without or with drawer interior sets (designated by an "A" near the end of the part number – i.e., MP0600-0402NA-M).

2. **Select lock type.**

- NL** = none
- RG** = individual
- KA** = keyed-alike
- MA** = master

For additional lock options, see our General Storage Catalog.

3. **Select paint color.** For color chart, see back cover.

EXAMPLE: to order an MP0600-0501NA-M cabinet with an individual lock, Bright Blue paint and a retainer top, the part number would be **MP0600-0501NA-M-RGBB**, with an MP-RT top (shown in photo at top of page).

Lista Nexus System

By equipping its workbenches with the Nexus Accessory System, Landmark Aviation took its productivity to stratospheric levels. The ability to have such accessories as pegboard panels, markerboards, overhead cabinets and electrical outlets within easy reach has improved both ergonomic comfort and efficiency.

Lista's Nexus System is a highly functional and flexible system of above-worksurface accessories and modular components. It has been designed to cost-effectively meet the needs of a broad variety of jobs.

The system has been ergonomically designed, delivering easy accessibility with no stretch or strain, reducing the risk of injury and increasing productivity.

Like all Lista systems, the Nexus System is modular and allows for easy reconfiguration. It can easily be adapted or expanded to meet changing needs. It can also be retrofitted to any existing workbench, whether it's from Lista or another manufacturer. Many Nexus components can be easily adjusted for specific tasks within a workshift. System width is limited only by your worksurface length.

All components are available in ESD paint for static-sensitive applications.

Nexus System accessories can also be used with our other Nexus System products:

- Packing benches (page 86)
- Stationary stands (page 92)
- Mobile trolleys (page 92)
- Flow racks (page 96)

Nexus System benefits include:

Greater productivity and efficiency

Extensive selection of heights and widths, allowing you to configure your workspace to fit your needs.

Reduced strain, increased ergonomic ease

- Accessories can be chosen and positioned to best suit each user for ultimate ergonomic adaptability.
- Many accessories can tilt and pivot in a number of positions, easily adjusting to the most comfortable and useful position.

Nexus System accessories are not compatible with Arlink® 8000 or VSI uprights. For accessories for those systems, see pages 22-28.

Workstations equipped to exactly suit your needs

The wide choice of accessories means that whatever the task, an appropriate accessory is available.

Properly illuminated work area

Light fixtures can be easily positioned at the desired height, depth and angle.

Maximum available worksurface

Articulating arms mount to Nexus uprights, leaving full surface available for task.

TO ORDER AN EASY-ORDER COMBINATION (PRECONFIGURED NEXUS SYSTEM ACCESSORIES), SEE PAGES 84-85.

Lista's advanced Nexus System enables the user to customize the workspace for the greatest productivity and ergonomic comfort. Accessories can be easily added and moved to provide complete flexibility and ease of use.

Building your ideal Nexus accessory system is an easy process. Simply select the frames (starters and adders) that fit your worksurface width, then pick accessories of corresponding widths to mount on the frames. Accessories are easily moved and repositioned as your needs change.

Nexus Surface-Mount Frames

Frames are sturdy, heavy gauge steel, and are notched front and back at 1" increments for mounting accessories. Starter frames consist of 2 upright posts and a horizontal rail. Adder sets consist of an additional upright and horizontal rail. Uprights are available in heights of 30" and 48", and 6 widths. Foot plate is 2 3/4" x 4". Specify color from chart on back cover.

Nexus System Shelves

Adjustable Shelves

Adjustable, heavy gauge steel shelves can be mounted parallel to the work-surface or at a 15° angle for easy, ergonomic access. They have a 100 lb. weight capacity for evenly distributed loads. Shelves are reversible, with the lip either at the front, or at the rear to act as a back stop. Supports are attached through a simple double-notch system into slots on the uprights.

Nexus System Overhead Cabinets

For descriptions of overhead cabinets, see our General Storage Catalog. Overhead cabinet width must match Nexus frame section width. Mounting brackets must be ordered separately.

How to order a Nexus overhead cabinet

1. Select overhead cabinet based on your choice of dimensions.

2. ■ Select door type.

ND = no door

Door for 16" high overhead cabinets

RD = retractable door

Doors for 29" high overhead cabinets

HD = hinged doors

HDP* = hinged doors with steel-framed plexiglas

SD = sliding doors

SDP** = sliding doors with steel-framed plexiglas

**plexiglas doors available for cabinets 30" and wider only*

***plexiglas doors available for cabinets 42" and wider only*

3. ■ Select lock type.

RG = individual

KA = keyed-alike

MA = master

4. □ Select paint color (see back cover for color chart).

5. Order mounting brackets.

EXAMPLE: to order an OHC2416 overhead cabinet with a retractable door, an individual lock, and Bright Blue paint, the cabinet part number would be **OHC2416-RDRGBB**, and the mounting brackets would be **NX/OHC-BRK16**.

Each combination includes 1 Nexus starter frame and 1 adder frame at the height shown. Combinations designated with "SM" surface mount to a Lista or other workbench with a work-surface at least 6" longer than the Nexus frames. Combinations designated with "RM" rear mount to a Lista Align® adjustable height base only. Certain combinations are available with optional overhead lights (see charts below illustrations for availability).

How to order an Easy-Order Nexus Accessory Combination

1. Select Easy-Order Nexus Accessory configuration.

2. ■ Select worksurface length.

60 = 60" long (combination consists of 24" wide starter frame and 30" wide adder frame)

72 = 72" long (combination consists of 30" wide starter frame and 36" wide adder frame)

Nexus System Packing Bench Accessories

If you need to pack and ship products, and you want to get the job done quickly and efficiently, Lista delivers the complete package you've been looking for. Our advanced, modular benches are specifically designed for packing and shipping applications. Fully customizable, they will accommodate your needs today and in the future.

Lista's packing and shipping benches bundle together an array of superior features and benefits. Extremely flexible, the benches come in a variety of lengths (48" to 96") and depths and are available with a wide selection of worksurfaces, including butcher block, Lista Top, and galvanized or stainless steel over wood.

The addition of the Nexus System and its wide array of accessories means that your packing benches can be customized to exactly suit your needs, without a custom price.

TO ORDER AN EASY-ORDER COMBINATION (PRECONFIGURED NEXUS SYSTEM PACKING BENCH), SEE PAGES 90-91.

Nexus System Packing Bench Accessory Features

Our packing benches can be configured with cabinet bases or legs to create a cost-effective, custom solution. With our modular drawer storage cabinets doubling as pedestals, users have systematic, efficient storage for their supplies, tools, paperwork and accessories.

Beneath the worksurface, vertical wire shelf dividers provide custom storage for corrugated or other bulk materials.

Above the worksurface, Lista's modular Nexus System provides a full range of accessories that offer easy access to packing materials at arm height. There are holders for rolls of paper, bubble rolls and labels. Vertical wire dividers are available to keep shelf storage organized. Other Nexus accessories include louvered panels to hold bins, plastic box rails, electrical attachments, overhead cabinets, computer monitor trays, document holders and many more (see pages 77-83).

Packing benches can be designed using a full range of Lista workbench products:

- Technical workstation components, pages 42-43
- Industrial workbench components, pages 56-57
- Cabinet pedestals, pages 60-71
- Nexus System accessories, pages 76-85

The additional components shown on the following two pages enable you to equip a packing bench that exactly suits your needs.

Nexus System Stationary Stands and Mobile Trolleys

Nexus stationary stands and mobile trolleys are the perfect complement to any production, repair or assembly workspace. Hold and/or transport parts, tools, test equipment and almost anything else you can think of, with the convenience of a small footprint.

Designed to accept all Nexus System accessories, these mini-workstations can be configured to exactly suit your needs. For the complete range of Nexus accessories, see pages 77-83:

- Shelves, page 77
- Lights, page 78
- Power, page 79
- Pivoting accessories, page 82

Stands are available in four heights (48", 60", 72" and 84") and six widths (24", 30", 36", 42", 48" and 60"). Trolleys are available in the same widths, and in heights of 48" and 60" (casters add an additional 6" to overall height).

Stands and trolleys can be ordered in either rear-justified or center-justified configurations.

Add a worksurface, and your Nexus stand becomes an economical workbench.

Nexus System Flow Racks

Nexus flow racks are an effective material handling solution for presenting parts for picking, kitting or assembly.

Parts delivery by gravity feeding cartons or parts bins reduces the need for parts delivery personnel, allowing one person to service more production or packaging stations. By assembling flow racks in rows, you can achieve even greater productivity and convenience.

Designed to accept any Nexus System accessories, flow racks can be configured to exactly suit your needs. For the complete range of Nexus System accessories, see pages 77-83:

- Shelves, page 77
- Lights, page 78
- Power, page 79
- Pivoting accessories, page 82

Add a worksurface, and your stationary Nexus flow rack becomes a highly efficient assembly or work station.

Flow rack frames are 86 3/4" high and 48" deep, and are available in five widths (30", 36", 42", 48" and 60").

*casters add 6" to overall height;
leg kit adds 3" to overall height

PAINT COLORS – PLEASE NOTE!

- Nexus flow racks are available in Light Gray only.
- Other colors, including other standard Lista colors, are available on request at an additional charge.

The Nexus Flow Rack is completely configurable, and can be equipped with such task-specific accessories as overhead lights, shelves and worksurfaces.

Fully configurable tracks and guides

Shelves can be mounted in a variety of positions and angles

Equipped with adjustable glides (some configurations available with casters for mobility)

Nexus Flow Rack Frames

Nexus flow rack starter frames consist of 4 upright posts and 8 horizontal rails. Adder sets consist of 2 additional uprights and 6 horizontal rails. Frames are sturdy, heavy gauge steel, and are notched front and back at 1" increments for mounting accessories. Includes 4 adjustable glides. 1,800 lb. weight capacity. Lista offers three models of seating ideal for workstations.

Each features pneumatic seat height adjustments, single lever control, anatomically shaped seats with lumbar support for ergonomic comfort and safety, and a chrome footrest. All seats are available in mid or high back, in fabric or vinyl, and with casters or glides which conform to the contour of the floor for safety and comfort.

Seat height with glides is 18"-26". Adjustable T-arms are optional. ESD feature is also optional for fabric or vinyl. Our seating meets the Cal 117 flammability code, with an optional Cal 133 rating. Seating requires assembly.

Our seating features a lifetime structural warranty, 5-year mechanical warranty and 3-year upholstery warranty.

How to order seating

1. Select either SD mechanism or AX mechanism. Part number shown in the charts to the left includes black vinyl seat and back, and glides. To specify fabric or casters, add options to part number (below).
2. Change to fabric from black vinyl (optional).
 048 = Burgundy
 055 = Navy
 022 = Gray
 024 = Green
 026 = Black
3. Change to casters from glides (optional).
 C1 = hard floor casters
 C2 = carpet casters
4. Add additional options.
 ESD* = ESD features in seat and casters
 CAL133* = meets Cal 133 flammability code

*ESD and CAL133 can not be ordered for same seat

EXAMPLE: to order a V79-3S high back armless seat with Navy fabric, carpet casters and ESD features, the part number would be **V79-3S-055-C2-ESD**.
